

If your team can't get to the meeting, bring the meeting to your team

Regular meetings without the hassle

Those important team meetings can come around quickly can't they? With today's busy schedules it can be tough getting a handful of people in a room for a meeting or even on a one-to-one basis.

With N3 Video Conferencing, this can be a thing of the past. Meet on a regular basis and cut out the expense of travel and lost working hours.

Dispersed team?... no problem.
